Email
Which ways can I check my email?

We support a number of methods for accessing your email accounts. Those are:

- Email client (like Outlook, Thunderbird, or Mac Mail)
- Webmail

We generally recommend using webmail to check your email, as it is extremely flexible and accessible from virtually anywhere with an internet connection.

Our webmail addresses are:

- http://webmail.cape.com (for @cape.com users)
- http://webmail.meganet.net (for @meganet, @abcisp.net, @empire.net, and @naisp.net users)
- http://imail.meganet.net (for commercial customers with custom domains and @celticweb.com users)

If you prefer to check your email with an email client, [click here to view the appropriate settings for your account](#).
