## How do I set an autoresponder in webmail?

Once logged into your webmail, look for the options menu in the top-right corner of the screen and select **Preferences**.

In the preferences page, first select the **Filtering** tab, then select the **Configure** button to the immediate right of the Holiday autoresponder row.

A screenshot of the webmail preferences page. At the top, there is a blue header with the word 'Options' and a 'Done' button. Below the header, there are several tabs: General, Filtering (highlighted with a red box), Spam Control, Customize, Extras, and Advanced. The main content area shows a list of settings. The first row is 'Holiday autoresponder', which is currently 'INACTIVE' and has a 'configure' link next to it. The 'INACTIVE' and 'configure' text are highlighted with a red box. Other rows include 'Forwarding', 'Filtering rules & exceptions', 'Safe address whitelist', 'Spam control', and 'Challenge unknown senders', each with its own status and a 'configure' link. Below the list, there is a link to 'Check the delivery log'.

Start by checking off Enable responder when you're ready for the system to begin responding on your behalf. Then enter your message subject and body. You also have additional options here like

# Email

choosing the enable the responder on the certain date, or having it auto-disable a set number of days after activating. When you're happy with your selections, press the Save button at the bottom of the screen.

**Options** Done

[General](#) [Filtering](#) [Spam Control](#) [Customize](#) [Extras](#) [Advanced](#)

[Autoresponder](#) | [Forwarding](#) | [Filtering](#) | [Whitelisting](#) | [Challenge](#)

**Holiday responder:**

**Automatic response to incoming mail**

Enable responder

Only respond to messages addressed specifically to this account

Only respond to friends

Only respond to local users

Start responding on: Day:  Month:  Year:

Only send to a particular user

Disable this response after  days. ()

Message subject

Message body

**This deletes the original message after responding (or forwarding).**

Delete original message

**Save**

Don't forget to come back to this page after returning and unchecking the **Enable responder** box if you haven't specified the Disable this response after \_\_\_ days field.
