

Email

Mail Server Settings on Android Mail

- Open the **Mail** app on your Android device.
- Go to **Settings > Accounts** and select your email account.
- Tap **Account Settings** and go to **Incoming settings**.
- Check your **Username**:
 - If it's "myusername," change it to "myusername@meganet.net".
- Ensure the **Incoming server** is set to: mail.meganet.net.
- Go back and select **Outgoing settings**:
 - Check your **Username** again, and if it's "myusername," append "@meganet.net" to make it "myusername@meganet.net".
 - Ensure the **Outgoing server** is set to: smtp.meganet.net.
- Tap **Done** to save your settings.
